

Refrigerated Vaccine Vehicle

VR-23

Scope of Application :

This product is suitable for cold chain transportation of drugs, vaccines, biological products, medical raw materials, fresh food and other products with strict requirements on temperature control.

Innovative Design

- Low fuel consumption
- Firm structure and corrosion resistance
- Complies with PQS certification
- Strong after-sales service support capability
- Good insulation, safe and reliable
- Accurate temperature control and high temperature uniformity

Product Features

- 
 - Double drive refrigeration system, can be powered by diesel generator or 220V AC
 - Safe and reliable
- 
 - +2°C~+8°C accurate temperature control, high uniformity
 - Thickened insulation layer, excellent insulation performance
- 
 - International brand refrigeration machine, high quality, strong performance
- 
 - Firm structure, suitable for complex road conditions
 - Low fuel consumption, high horsepower and low transportation cost
- 
 - Strong after-sales service capability, after-sales network all over the world
- 
 - Complies with World Health Organization PQS certification

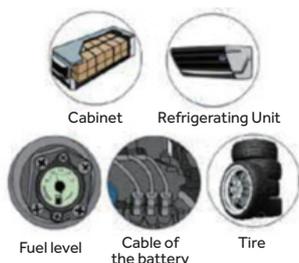

Temperature Curve

Refrigerated medicines such as vaccines are transported at 2~8°C

Precautions for Use

Vehicle Inspection

Interior Cabinet Cleaning

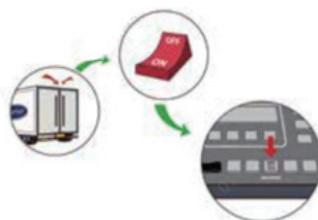

Precooling of the Cabinet

Correct Loading

Turn on the Refrigeration Unit Regularly

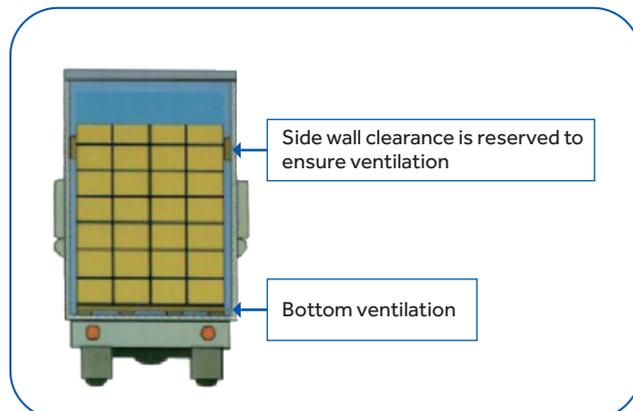

Regular Maintenance

Correct Mode of Loading

Temperature Interior the Carriage is Uniform

Specifications

Model		VR-23		
Refrigerated Truck	Combustion type	Diesel	/	
	Engine emission	EURO 5	Options:EURO 4/EURO 3	
	Steering wheel position	Left hand	Options: Right	
	Transmission	4x2	/	
	Gearbox	Manual	/	
	Seats	3	/	
	Color	White	/	
	Cabin air Condition	Air condition+Heating	/	
Refrigerated Body	Gross volume (m ³)	23.5	Can be customized according to user needs	
	External dimensions (mm)	5300x2500x2300		
	Internal dimensions (mm)	5100x2300x2100		
	Standard configuration	Dual rear doors	/	
		LED lighting	/	
		PVC curtain	/	
		Foldable ladder	/	
		Side door	/	
		Lifting gear	/	
		Shelves	/	
Optional	Air supply system	/		
	Refrigeration unit	Brand	Carrier	Options: Thermo King or other Chinese brands
		Temperature range	+2°C~+8°C	/
Refrigerant		R452A	/	
Climate zone		Hot zone: 0°C~+50°C	/	
		Cold zone: -20°C~+32°C	/	
Others	The refrigeration unit with 220V~240V stand-by power device and heating device	Options: 380V		
Temperature monitoring and control device	Temperature monitoring range	+2°C~+8°C	/	
	Data recording frequency	5 min	/	
	Sensor type	Wireless transmission	Options: wire	
	Alarm type	Voice alarm	/	

Temperatures can be recorded electronically, downloaded and printed
